Finance Divisions representing expenditures for property by the Fiscal Division against overt allotments (Fiscal Division Account 91.5 and Finance Division Account No. 535). Inasmuch as all current transactions affecting these reciprocal accounts are originated in the Fiscal Division, that division immediately following the recording of the last voucher each month will transmit a list by "schedule number" of all debits to its 91.5 account to the Finance Division. The Finance Division will take action before its books are closed to assure that all transactions listed by the Fiscal Division have been recorded in the 535 account. Immediately after closing its accounts the Finance Division will transmit to the Fiscal Division an IBM listing by "schedule number" of all transactions recorded during the current month to its 535 account.

5. VERIFICATION OF AGREEMENT OF RECIPROCAL ACCOUNT BALANCES

Before the Finance Division closes its books at the end of each month, verification will be made that the reciprocal accounts on both sets of records have been brought into agreement or that the Fiscal Division has made entries in the succeeding month for any transactions affecting its 91.5 account which were omitted. If it becomes necessary to effect entries in the 91.5 account of the Fiscal Division after it has closed its books for a respective month, the Fiscal Division will record such transactions in the subsequent month and notify PAS of the entries made in the accounts.
